Hi.

So here are some thoughts:

1. I spoke to my friend who owns the land under cell towers. If you send me the material regarding the company you're working with, I'll send to him with cc to you for following up. His name is Bob Hellman.
2. EB... I think he would be best off biz wise to consult like Blair and invest as available or put a top notch team together and lead a buy out himself as a partner. When that works, and a fund will be much easier to do.

Summer is here now and very little is happening biz wise.

Hope all is well with you.

Best to Oren, too.

Best++
